Wireless 3-in-1 Charging

Get all your devices charged at the same time with the Verbatim 3-in-1 charging station.

Wirelessly charge your Apple Watch and two iPhones (8 or later) or other Qi certified wireless charging enabled devices.

The charging station is engineered to charge devices as fast as possible, although the actual charging speed is dependent on the device - Apple watches charge at 5W while other devices can charge at up to 15W.

No messy cables! Just place each device on its designated space and charging begins on contact.

With over-current, over voltage protection, the charger can prevent over-charging your devices' battery.
