Where peace of mind begins.

The Motorola Care 3-in-1 Non-Contact Baby Thermometer gives families peace of mind, when it comes to staying healthy. Conveniently measure forehead, food and liquid temperatures, such as milk or bath water by simply holding the thermometer within 3cm of the forehead or liquid to get an accurate reading, in less than a second. If a high temperature is detected, the thermometer will light up red, and if a normal temperature is detected it will light green. The non-contact feature provides a more sanitary experience for you and your family. The night time mode turns off the thermometer's beep and is the perfect solution when checking temperatures of sleeping children or babies, without disturbing them.

Features

- Accurately check body, food and liquid (milk, bath water) temperatures
