

QPAD®|DX80 -8000 dpi FPS Gaming Mouse

The brand new QPAD DX 80 re-invents the era of FPS Gaming-Mice. With its slim form factor, light weight and the ergonomic shape it is the perfect choice for Hardcore-Gamers.

The resolution of the Gaming-Mouse is adjustable by hardware in steps of 1000, 1600, 2400, 3200, 5000 and 8000dpi. A truly highlight is RGB colour system of the mouse. It adds the style to your skill.

The innovative ergonomic right-hand design and the special soft-touch surface secures that Gamers hands will never slip off the mouse again. The elegant silk-black mouse also comes with a very flexible cable with a length of ca. 1.8m.

- Designed for the right-handed use with perfect grip due to it's softtouch-surface.
- The simple and lightweight design gives you perfect control and quick response.
- Great comfort and incredibly ergonomic shape - optimized for long gaming sessions.
- Plug and play, without any drivers, easy to install.
- Professional pixel precise DPI settings due to it's great PMW 3325 high end gaming sensor (adjustable DPI modes: 1,000/1,600/2,400/3,200/5,000/8,000).
- Integrated DPI button to switch fast between different DPI modes.
- USB polling rate up to 1,000 Hz ultrapolling (adjustable polling rates: 125/500/1000 Hz).
- RGB multi-effect LED lighting with three different lighting modes: Neon, Breath and Static ,the colors would change with different DPI stage.
- Provides the most sensitive and reliable Omron micro-switch.
- 1.8m braided cable for long lifetime & golden plated USB plug for ultra fast response.
